BOSTON, December 21.

IN the Nova-Scotia packet, from Halifax, came passenger Richard Reeves, Esq; register of seizures, and first clerk to the honourable board of commissioners of his majesty's customs, &c.

The hon. the commissioners of the customs have appointed Samuel Fitch, Esq; their solicitor. And,

George Lyde, Esq; surveyor and searcher of the customs for the port of Boston, until the arrival of Robert Chamier, Esq; the present surveyor, &c. who is now in England.

We hear that the towns of Roxbury, Eastham, and Attleborough, have unanimously come into the regulations of this town respecting œconomy, &c.

December 28.

It is now agreed on all hands, that much the greater part of what we import *from* Britain, are not necessaries, but such superfluities as that the laying aside the use and consumption of them, to save our country from the ruin impending, can hardly be termed *self-denial*.

We hear that the towns of Falmouth, Scarborough, Pepperrellborough, Biddeford, Wells, Kittery, Old-York, Arundel, and other towns in the counties of Lincoln and Cumberland; as also Newbury Port, Billerica, Medfield, Abingdon and Westboro', have unanimously come into the same regulations as this town, respecting frugality, &c.

January 4.

The senior class of scholars at the university in Cambridge, have unanimously agreed to take their degrees next commencement, dress'd altogether in the manufactures of this country.—A resolution which reflects the highest honour on that seat of learning.

We hear that the town of Abington, have adopted the same measures with this, respecting œconomy, &c. And that they voted unanimously they would look upon every person who did not sign to the enumerated list, as an enemy to his country.

NEWPORT, January 11.

——— Captain *Simon Newton*, of this Town, from April 1765, to January 5, 1768, hath had set, warped and wove, 3694¼ yards of linen cloth, and hath now 350 fourteen knotted Skeines of linen yarn unwove. 180 of the unwove skeines are from 11 to 14 skeines to the pound. The greatest part of the whole (and all the fine) was spun in his own house, and the remainder was done by some poor women whom he employed in this business.——This instance of industry and benevolence deserves public applause, and we hope will be imitated by every lover of his country.

On Friday the 14th instant, being new-year's-day, a number of respectable ladies of South Kingston, Narragansett, were invited to the house of a gentleman of the first rank and figure in the town, to celebrate the new-year anniversary in a festival manner; where they all appeared in homespun manufactured, (except one from Boston, who appeared in the habiliment of Tabby:) And though a most genteel repast was the entertainment of the company, yet not foreign tea, either bohea or green, was set before them, nor was it even expected. The whole evening was spent in a very mirthful, yet in the most decent, frugal manner.——This intelligence is published as an example to all lovers of decorum and Œconomy.

NEW-YORK, December 31.

We can assure the public, that Mr. Ebenezer Hurd, of Connecticut, who has rode post for 40 years between this city and Seabrook, had made in his own family this present year, by only his wife and children, no less than 500 yards of linen and woollen, the whole of the wool and flax of his own raising.

On Monday the 21st inst. his excellency the governor issued a proclamation offering a reward of fifty pounds, for a discovery of the author or authors of some seditious papers lately dispersed about this city.

BOSTON, December 28.

At the town-meeting held here last week, a large and respectable committee appointed the 28th of October, to consider of some measures for employing the poor of the town of Boston, by reviving the linen manufacture, in such other ways as should be tho't most beneficial, reported among other things,—That it was their opinion, that this province had all natural advantages for carrying on the linen manufacture, and that a sufficient quantity of flax may be raised for that purpose, if the government would give encouragement, and proposed a method whereby it might be carried on and established in this town.—They then acquainted the inhabitants, they had been informed by good judges, that duck or sail cloth has been made in this province, of a superior quality to any commonly imported from Russia, and that they doubted not but they should be soon able to lay a plan before them for manufacturing of sail-cloth, that may be equally beneficial to the town and province.—With the linen manufacture the committee also reported, that they had the pleasure to acquaint the town, that from the surest advices they had obtained from many parts of this province, the woollen and linen manufactures are carried on to so great a degree, as that a very great part of the inhabitants in most towns supply themselves with their own clothing.

At a wedding at Windham, last Wednesday afternoon, the ladies were very numerous, and dressed chiefly in cloaths of their own manufacture, and without ribbons:—At the entertainment which was very splendid, they made use of Labrador tea, which they preferred to the best bohea, thro' their excessive fondness for œconomy and our own manufactures.

NEW-YORK, January 28.

Within eighteen months past, 487 yards of cloth, and thirty six pair of stockings, have been spun and knit in the family of Mr. James Nixon, of this Town.

Another family in town, within four years past, hath manufactured 982 yards of woollen and linen cloth, viz. in 1764, 342 yards; in 1765 and 1766, 490 yards; and in 1767, 149 yards; besides two coverlids and two bedticks, and all the stocking yarn for the family. Not a skein was put out of the house to be spun, but the whole performed in the family.

We are credibly informed, that many families in this colony, within the year past have each manufactured upwards of seven hundred yards of cloth, of different kinds.

These instances of indestry are mentioned with a view to demonstrate, how very easy it will be for these colonies, in a short time, to be independent of any other country, for cloathing; and at the same time to excite others to imitate examples so highly beneficial to themselves and the community.

NEWPORT, January 18.

Letters by the packet acquaint us, that there are three new governments to be established on this continent, viz. Detroit, Ohio, and the Illinois; that the Indistry flood firm, but that our friend Mr. Grenville, was very diligent in procuring all the interest possible against the colonies; and that the Dutch were about ceding some part of their dominions in the Indies to the king of Prussia.

Boston, January 11. We have the pleasure to inform the public, that several of his majesty's council and many of the house of representatives, now sitting, appear compleatly cloathed in the manufactures of this country; a number of the clergy are also cloathed, and cloathing themselves therewith.—*Such examples cannot fail to excite the imitation of all others, at a time when it is universally agreed, that the political salvation of this continent depends upon promoting frugality and manufactures.*

We hear that the towns of Plymouth, Sandwich, Truro, Lexington, Bolton, Grafton, and Dartmouth, have come into the same measures to promote œconomy, &c. with this town.

Last week a gentleman at Scituate sent up here 15 samples of different kinds of cloths lately manufactured there, consisting of broad cloths, serges, tammies, shalloons, camblets, figured stuffs, &c. which are said, by good judges, to be superior in quality to any of the sort usually imported from abroad.

Boston, January 18. We hear there is now depending in the general court, a bill for preventing any person from practising Physic or Surgery, until he has undergone a proper examination.

We hear, that the honourable commissioners of his majesty's customs for America, have appointed Gamaliel Smithurst, Esq; controller for the port of Halifax in Nova-Scotia.

We hear that the scheme proposed by the committee appointed to consider of some measures for employing the poor of this place, by reviving the linen manufacture, &c. was unanimously accepted by the town, at their meeting held last wednesday.

We are informed from good authority, that *seventeen thousand* yards of excellent woollen cloth were manufactured at East-Hartford in Connecticut, during the course of last year.

Newport, January 25. The general assembly of New-York, on the 21st ult. passed an act, *for making a further provision of fifteen hundred pounds, for furnishing his majesty's troops quartered in that colony, with necessaries*; without any amendment.

We hear that the hon. board of commissioners have thought proper to refuse to establish a custom-house at Providence, in this colony, as petitioned for by the merchants of that town.

London, Dec. 5. There are many different accounts from Naples, as well as other parts of Italy, of a most dreadful insurrection at Palermo, the capital of Sicily, where the populace, after having murdered the guard of the Viceroy, and made him prisoner, hanged up several of the council, and committed many other enormous outrages. 'Tis said, the number of foreign vessels trading through the Mediterranean with British passes is so great, that our consuls in the various ports of that sea, will be instructed to confiscate them wherever they find an opportunity; and we are told, if the government of their several residence shou'd obstruct such a measure, 'twill be considered as an act of hostility against the crown of England.

A morning paper says, that a person at the west end of the town, has by labour and great expence invented a chemical preparation, which being applied to iron or steel, will in the space of one hour, or less, make it as malleable as to be cut by a knife or other instrument, without trouble.

D. CAMPBELL, C. C. P.

Pleas Office, Feb. 12, 1768.

CHARLES-TOWN, *February* 15.

THE acts of parliament, "*for prohibiting the exportation of grain &c. from Great-Britain,*" and "*for allowing the importation thereof, free of duties,*" received the Royal assent the 28th day of the session.——By the latter, the importation of RICE into Great Britain is allowed, free of duties till the first of *January*, 1769; but an additional duty is laid thereon, upon its being again exported thence, "*of six pence in the pound, according to the rate or rate set upon it in the book of rates referred to by the act of the 12th year of King Charles the Second,*" which is £.1 6 : 8 : the 112 lb. so that the new duty or subsidy is, *seven pence* and *six tenths* upon every 112 lb.

SOUTH-CAROLINA,

By His Excellency the Right Honourable Lord CHARLES GREVILLE MONTAGU, *Captain General, Governor, and Commander in Chief, in and over the said Province, and Vice-Admiral of the same.*

A PROCLAMATION.

WHEREAS I think it necessary for His Majesty's Service, to put an End to the present Session of the General Assembly of this Province, which now stands adjourned to the Sixteenth Day of this instant; I DO THEREFORE issue this my Proclamation, proroguing the said General Assembly, to the Twenty-second Day of this instant February; and the said Assembly is hereby accordingly prorogued to the said Time.

GIVEN under my hand, and the great seal of the said province, at CHARLES-TOWN, *this twelfth day of February Anno Dominion thousand seven hundred and sixty-eight, and in the eighth year of his Majesty's reign.*

C. G. MONTAGU.

By his Excellency's command,
THOMAS SCOTTOWE, Secr.

GOD SAVE THE KING.

This prorogation putting an end to the session, the bounty to new settlers ceases.

Wednesday last put into the port, the Brigt. St. Peter, William Cowsey, master, from London, bound for Halifax, (with passengers) having been 16 weeks at sea, and blown off the coast of Nova Scotia.

The same day, *George Jarvis* and *Thomas Grey* were executed, pursuant to their sentence. *Arthur Sikes*, who was condemned at the same time, and for the same offence, was reprieved; as were also, *Ephraim Jones* and *Jonathan Clark*, alias *McConnel*, condemned at March Sessions.

This day, the bay horse SHADOW, belonging to Mr. Thomas Nightingale, rising nine, started against Samuel Elliott, Esq's bay horse DARTNELL, rising eight years old, each carrying nine stone, the best of 3 two-mile heats, for *seven hundred pounds* currency, and was won *hollow* by the former. They are both but full 15 hands high: the former was got by Basham, out of a thorough bred mare, and has been the property of the Dukes of Northumberland and Kingston; and the latter was the property of Lord Grosvenor. As soon as *Shadow* was stripped to run, the racer appeared in him, and he may be said to have won in a canter. Very few bye bets depended on this race. We hear, that *Shadow* is to cover mares at or near Dorchester this season.

The board of commiſſioners of his Majeſty's cuſtoms for America, have ordered, that all monies ariſing from that branch of the revenue ſince the 10th of October laſt, be remitted to *Charles Stuart*, Eſq; their caſhier, in *Boſton*.

This day *Mr. Iſaac Macpherſon*'s Negro CAIN was brought to town, under a ſtrong guard, from Fort Prince-George, Keehowee.

Laſt Saturday Mr. David Dott, merchant, was married to Miſs Sally Baker, of Aſhley-River.

Yeſterday died, Mr. *Richard Downes*, jun. merchant, of Dorcheſter.

Since our laſt, the price of RICE has riſen from 50 to 60*ſ.* per 100 lb. The other articles of our produce are as they were, and in little demand.

Several of the veſſels arrived here lately, on account of the preſent *high price* of rice, and *low freights*, are going away, ſome to *North Carolina* and others to *Georgia*.

Between eleven and twelve o'clock in the night of Friday the 5th inſtant, the following ſeamen belonging to the SHIP ELIZABETH and MARY, *Samuel Cowell*, maſter, viz.

Mr. TIMOTHY,

AS my business hurries me out of town, I beg the favour of you to insert in the successive gazettes, that I was honourably at the court of general sessions, &c. for the killing of Joseph Jordan, notwithstanding the malicious prosecution that my bitter enemies set on foot against me, without a sense of humanity, or the least regard to common honesty.

SOUTH-CAROLINA.

WHEREAS the kalendar or list of constables in the office of the clerk of the crown and peace, is very incorrect which has been occasioned partly, by many persons thinking that, after having served a twelve months in the office of a constable, they are at liberty to quit it without giving themselves any trouble about getting proper persons appointed to serve in their room; and partly, by magistrates in the country taking upon themselves to appoint constables, without any legal authority for so doing: IT IS ORDERED, That the magistrates in the several parishes throughout this province do when they meet upon Easter monday, to grant certificates to the retailers of spirituous liquors, prepare lists of such persons as shall then be acting constables within their several districts; and transmit the same with all convenient speed, to the said office of the clerk of the crown and peace; and also that they do recommend proper persons to serve, wherever there may be a deficiency.
